PATENTED!

STEEL I-BEAM HANDLE REINFORCEMENT

over 50% stronger than plain handles

Wood's steel I-Beam insert adds 50% more strength at the point where 65% of all handle breakage occurs.

The two-piece reinforcement is riveted solidly through the blade socket, but flanged around the handle above the socket, giving added strength without sacrificing resiliency or spring.

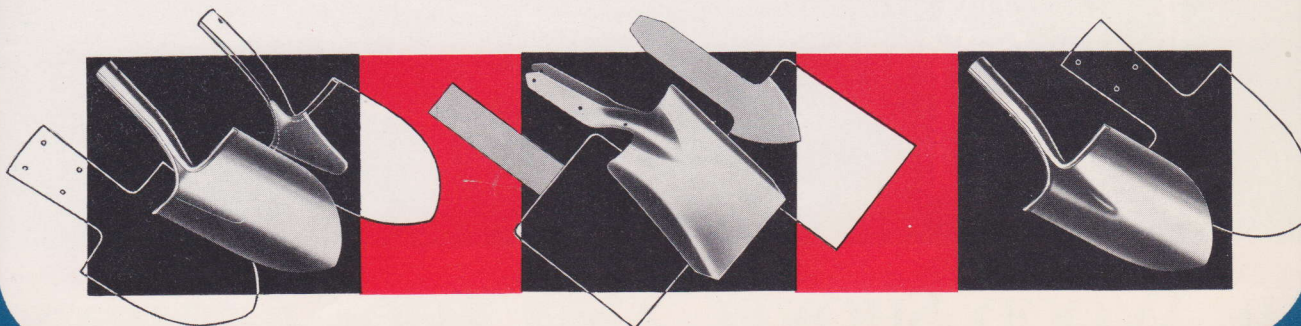

YOUR CHOICE OF BLADE CONSTRUCTION

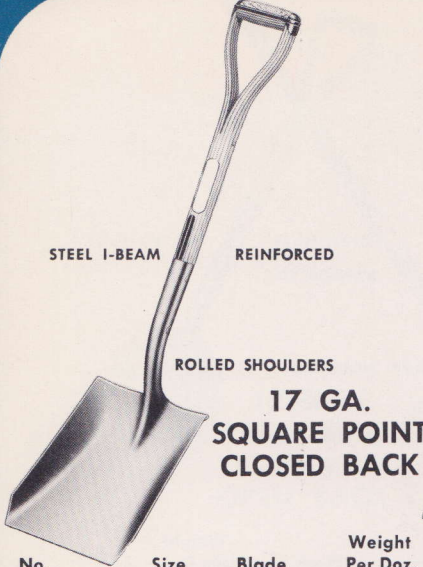

Shovels and spades are manufactured in Closed Back and Open Back types. Scoops are furnished in Open Back type only. The Closed Back construction incorporates the best features of all types: Smooth back, rolled shoulders, I-Beam handle reinforcement. Straight shoulder chucked handle makes re-handling easier.

REPLACEMENT HANDLES

Note: Replacement handles for open and closed back blades are furnished with steel I-beam reinforcement as standard. If I-beam insert is not wanted, order by catalog number and specify "NO I-BEAM".

JLVCBX 22 1/2" Moly D handle for closed back shovels.

JLVTSX 28" Moly D handle for open back shovels.

JLV3X 30" Moly D handle for open back coal shovels and scoops.

Always order the correct replacement handle by catalog number. The wrong handle will spoil the balance of the tool.

JLKCBX 43" long handle for closed back shovels.

JLKTSX 48" long handle for open back shovels.
